-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 3, 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are unclear, because they depend on canceled claims 2 and 5 respectively.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1, 3, 6-11, 1319, 21-23, 25-28 are rejected under 35 U.S.C. 102(a) as being anticipated by WO 03/102346 A2 (hereinafter reference '346). Reference '346 teaches the elements of the above claims (Figures 1-4, elements 1, 9, 2, 2, section 11). The desalination system in reference '346 shows bore hole casing with the desalination unit(2), placed on a compartment sealed to collect the water to be treated and pump it to the membrane but pump (3); the lower discharge and permeate collection pipe (5) are also disclosed; the positioning of the pump can be alternatively arranged at the top of the desalination unit or at the bottom, the sealed area is shown by a member or "walls" in the borehole separating the discharged concentrate from the membrane desalination unit (not numbered); the screened part of the walls of the borehole allowing entering and exit of the water to the chambers is also shown. Removing the

desalination unit apparatus from the borehole is further disclosed (abstract, page 4, lines 14-page 6; page 6, lines 5-10; pages 8-page 9, line 21; or entire disclosure). The process of filtering water as in claims 25-28 are disclosed in connection to the use of the membrane desalination using the apparatus in '346.

Allowable Subject Matter

4. Claims 4, 20 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: the sealing member, separating the casing into upper and lower regions, in this claims are directed to a seal member or inflatable packer that when is not inflated can be removed with the filtration unit, there is not disclosure and inflatable sealing member in the WO'346 reference.
6. A proposed amendment to place the claims in conditions for allowance by inserting these limitations into independent claims 1 and 11, and canceling the process claims 25-28, was discussed with Robert A. Voigt, Jr., agreement was not reached.

Conclusion

7. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 9/11/08 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
